

Using LinkedIn: Remove Connections

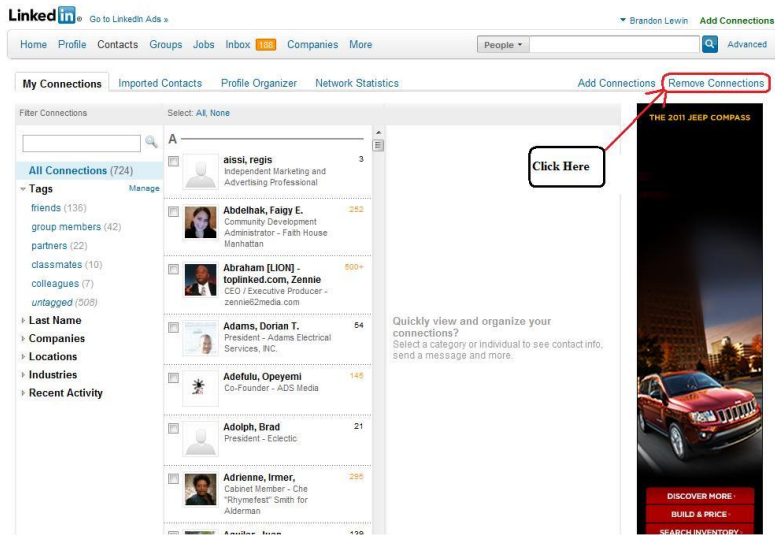

You might have accepted an invitation to connect with someone you no longer have interest in staying connected with or you just do not want that person in your Network anymore. No matter your reason, here is the step by step process to Remove a Connection:

1. Locate the “Contacts” button on the upper bar.

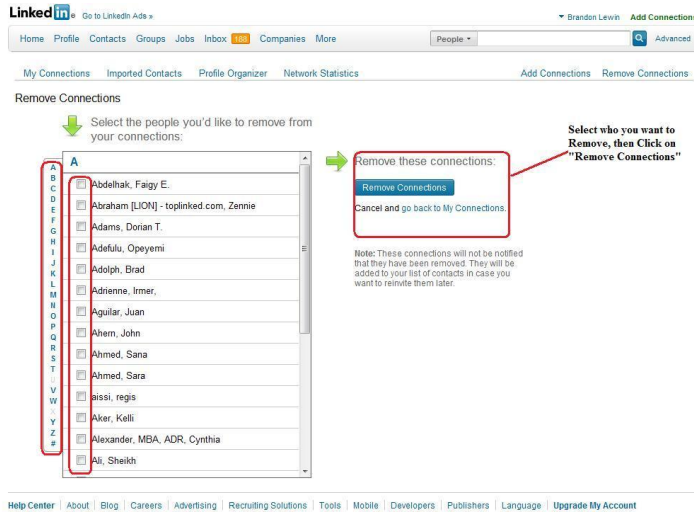

2. Click on just the “Contacts” button.

- You have now reached your Address Book for all your Contacts on the right hand side there is a button that says "Remove Connections". Click on it.

4. Select the Person(s) you choice to remove and select their name by clicking on the small grey box next to their name. The People you are connected to are organized alphabetically by last name. You can select the letter of the person's last name on the right hand side.

5. Once you have selected the person or people to remove, just click on the Blue Button that says, “Remove Connections”. Then Click on “Yes, remove them” and you will be done!
